

QUICKSILVER CONSTRUCTIONS PVT. LTD.

INFRASTRUCTURE. CONNECTIVITY. EXCELLENCE.

WHO WE ARE

Quicksilver Constructions Private Limited stands at the forefront of India's infrastructure revolution, delivering cutting-edge telecommunication network services and specialised civil engineering solutions across some of the nation's most demanding geographies.

Incorporated in 2025 and headquartered in Jammu (J&K), the company brings together a management team whose collective experience spans decades of work with leading telecom companies in India. This experiential inheritance, combined with a lean and highly responsive organisational structure, enables Quicksilver to mobilise rapidly, execute with precision, and deliver within timelines that set it apart from conventional contractors.

VISION & MISSION

Vision

To shape tomorrow's urban and digital landscape through world-class infrastructure and seamless connectivity—setting new benchmarks in reliability, sustainability, and community impact across India.

Mission

- Deliver client milestones with exceptional precision, speed, and quality assurance.
- Integrate sustainable engineering practices across all project phases.
- Build enduring, trust-based relationships with clients, partners, and communities.

CORE CAPABILITIES & INFRASTRUCTURE

Quicksilver operates with a robust, in-house capability stack that enables end-to-end project delivery without dependence on multiple sub-vendors.

Fibre Optic Deployment

Open trench, HDD, and structural overhead methods across plains and extreme mountainous terrain. Certified for FTTx, backbone, metro, and rural connectivity networks.

4G / 5G Network Engineering

Full-spectrum design, rollout, and optimisation of telecom networks including site acquisition support, RF planning, and integration testing.

Military & Government Civil Works

Residential buildings, security walls, sanitary posts, and guard rooms executed to Military Engineering Services (MES) specifications with zero-defect tolerances.

Operations & Maintenance (O&M)

Rapid-response O&M teams managing over 1,800 km of active network. SLA-driven maintenance with 24/7 fault response protocols.

LOCAL LIAISON & COMMUNITY PARTNERSHIPS

One of Quicksilver’s most significant competitive advantages is its deep, on-the-ground presence in the regions it operates in. Our leadership and operational teams have cultivated strong working relationships with local government bodies, district administrations, village panchayats, forest departments, and right-of-way authorities.

Government & Regulatory Interface

- Direct liaison with District Collectors, Municipal Corporations, NHAI, PWD, and J&K government departments.
- Established channels with forest departments for eco-sensitive zone clearances in Himalayan terrains.
- Coordination with defence establishments and MES for project execution within cantonment zones.

Terrain & Community Intelligence

- Long-standing relationships with local material suppliers and sub-contractors across J&K, Punjab, HP, and Uttarakhand.
- Partnerships with regional logistics providers to ensure just-in-time material availability.
- Unmatched institutional knowledge of terrain conditions and seasonal constraints.

ORGANISATIONAL CAPABILITIES

Human Resources

Skilled team comprising technical professionals, coordinators, and field staff capable of handling multi-site assignments.

Financial Strength

Disciplined fund management and the ability to front-load project mobilisation costs, ensuring uninterrupted execution.

Resource Mobilisation

Rapid deployment capability for manpower, machinery, and logistics, critical for high-altitude deployments.

EQUIPMENT & RESOURCES

CATEGORY	ASSETS MAINTAINED
Fibre & Network Tools	OTDRs, TDRs, fusion splicing machines, mobile cable blowing units, fibre cleavers, optical power meters.
Heavy Machinery	Excavators, hydraulic trenchers, bore machines (HDD rigs), compactors, concrete mixers.
Vehicles & Mobility	Dedicated service vehicles, crane trucks, cable drum transport units, rapid-deployment vans.

FINANCIAL PERFORMANCE & GROWTH TRAJECTORY

Quicksilver has demonstrated strong and consistent financial growth, reflecting the quality of its execution, the depth of its client relationships, and the expanding demand for infrastructure services across its operating geographies.

MAJOR CLIENTS & PARTNERSHIPS

We proudly serve leading telecommunications firms, government institutions, public sector bodies, and infrastructure developers:

- Vindhya Telelinks Ltd (MP Birla Group)

▪ Smartmile Global Technologies Pvt Ltd

▪ Invenia (STL Network Ltd)
- Dilip Buildcon Limited

▪ HFCL Ltd

▪ Dbyte Facility Network Pvt Ltd

SELECTED PROJECTS PIPELINE (EXECUTION & AWARDED)

CLIENT	SCOPE / REGION	TYPE	QUANTITY
Vindhya Telelinks Ltd	Fibre deployment in J&K	Project	> 200 Km (Total)
Dilip Buildcon Ltd	Fibre deployment in J&K	Project	~ 525 Km (Total)
Invenia (STL Network)	Fibre deployment in J&K	Project	~ 295 Km (Total)
Smartmile Global Tech.	Fibre O&M in J&K & Ladakh	O&M	5,770 Km (Total)
Dbyte Facility Network	Civil/Tower installation in UP	Project	100 Nos

* Note: Additional ~1,170 Km of fibre deployment and 150 Nos civil works are currently under joint survey across Punjab, HP, Ladakh, and UP.

QUALITY, SAFETY & COMPLIANCE

Quicksilver operates to the highest standards of quality management, safety, and environmental responsibility.

Quality Management

- ISO 9001:2015 certified quality management system.
- Documented SOPs for all critical field activities.
- Regular internal and third-party quality audits.

Health, Safety & Environment (HSE)

- Mandatory HSE induction for all site personnel.
- Full PPE compliance enforced on all sites.
- Zero-tolerance policy for unsafe practices.

REGULATORY COMPLIANCE

CIN	U42900JK2025PTC017172
MSME Registration	UDYAM-JK-07-0073579
GSTIN (J&K)	01AABCQ0926B1ZA
GSTIN (Punjab)	03AABCQ0926B1Z6

LEADERSHIP TEAM

Wasim Akram – Managing Director

Drives overall strategic direction, client relationships, and business development. Brings extensive experience in telecom infrastructure and civil engineering project leadership.

Sanjeev Yadav – National Project Head

Oversees end-to-end project delivery across all geographies. Specialises in large-scale fibre deployments and multi-site telecom rollouts in challenging terrain environments.
